SUMMARY!

Targeting **SOFTWARE DEVELOPER** roles with an organization of high repute with a scope of improving knowledge and further career growth.

• Experienced in using DSA to tackle coding challenges and contribute to competitive programming, showcasing problem-solving skills and analytical thinking

•Designed and implemented dynamic web applications using the MERN stack (MongoDB, Express.js, React, Node.js), enhancing functionality and user experience through interactive and responsive design..

EDUCATION

Shri Shankaracharya technical campus(Bhilai), B.tech in Computer Science   NOV 2021 - 2025
• CGPA: 7.9 , SPI: 8.45

PROFESSIONAL EXPERIENCE

Front-End Developer, CODSOFT   NOV 2023 -DEC 2023

Results-driven Web Developer with hands-on experience at CodSoft, specializing in creating dynamic, user-focused websites and applications. Demonstrated expertise in modern web technologies and a proven ability to deliver high-quality solutions that enhance user experience and drive business success.

PROJECTS

EASY-TRAVEL   github.com/name/repo

- Developed and optimized an online hotel booking system, using the MERN stack (MongoDB, Express, React, Node.js), resulting in a scalable and responsive platform for seamless hotel reservations.
- Designed and built a dynamic user interface with React, enhancing user interactions and real-time updates for hotel searches, filtering, and bookings, contributing to a significant increase in user engagement.

CHAT-APP   github.com/name/repo

- Developed a real-time chat application using the MERN stack (MongoDB, Express.js, React, Node.js), incorporating WebSocket technology for instant messaging and dynamic user experiences.
- Implemented user authentication, message persistence, and a scalable architecture with RESTful APIs and MongoDB databases, resulting in a highly responsive and secure chat environment.

SPOTIFY-CLONE   github.com/name/repo

- Developed a fully functional Spotify clone using HTML, CSS, and JavaScript, featuring a user-friendly interface and responsive design for seamless cross-device compatibility Utilized JavaScript to integrate interactive elements and ensure smooth user interactions, including real-time updates and media control.

TECHNOLOGIES

Languages: Java, Data structures and Algorithms, python, GIT/GITHUB

Web Development: Html, Css, JavaScript, Bootstrap, SQL, MongoDB, Express.js, Node.js, React

ACADEMIC ACHIEVEMENTS

• Earned a certification in Data Structures and Algorithms.

• Earned a certification in full Stack Development, demonstrating proficiency in MERN stack technologies

• solved 50+ Problems in **Leetcode**
